PERSONAL PROFILE

I am an inquisitive person having keen interest in programming. I am seeking to leverage my technical and interpersonal skills.

PROJECTS

Secrets App
Node.js | Express.js | Passport.js | bcrypt | HTML5 | CSS3
- Created an app which stores user's secrets and show them anonymously.
- Used google **OAuth 2.0** along with salting and hashing using **bcrypt** to secure user's credentials.
- Used MongoDB and mongoose for storing the credentials.

Keep App
React JS | HTML5 | CSS3
- Built a clone of Google Keep App using ReactJS, which is used to store notes.

Blog Website
Node.js | Express.js | MongoDB | Mongoose | Lodash
- Made a blog website which can be used to read other person's blogs and compose a blog of your own.

Todo-List
Node.js | Express.js | MongoDB | Mongoose | HTML5 | CSS3
- Made a todo-list web app which adds and deletes tasks.
- Used express module along with MongoDB database to store tasks.

Text to Speech Generator
HTML5 | CSS3 | JavaScript | Bootstrap
- Made a webpage which changes text to speech using Web speech API.
